Solution Architect

Mendix Platform

Agile Process

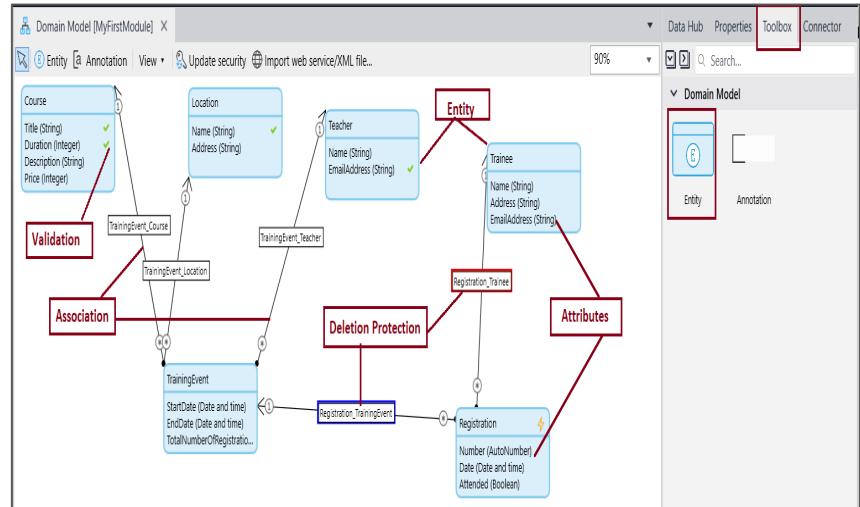

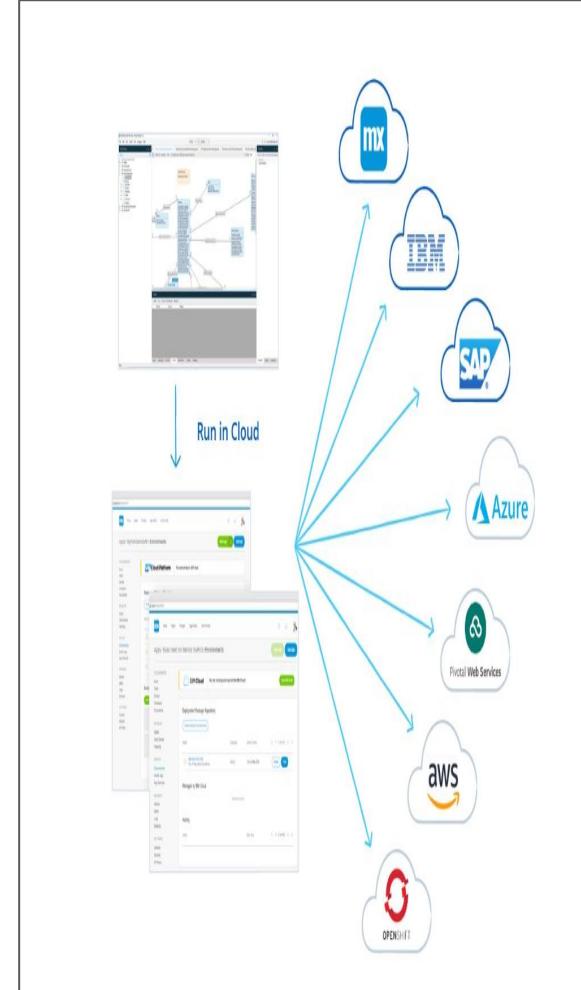

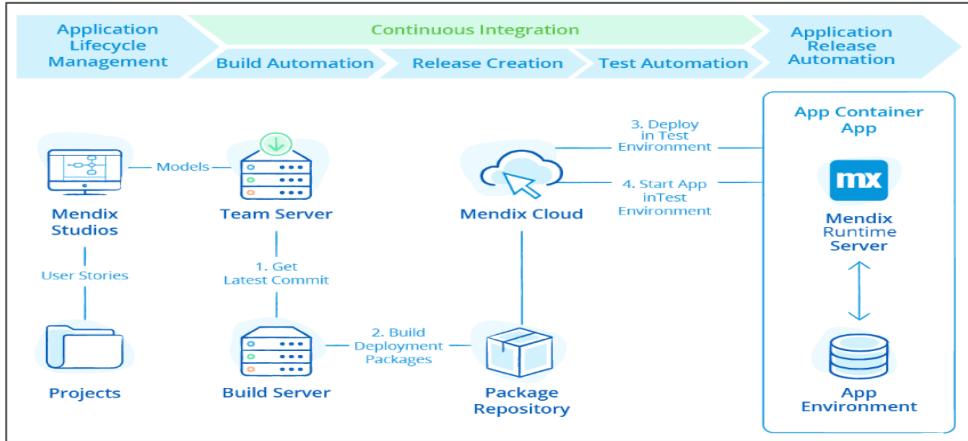

Mendix Platform

The image displays three Mendix UI components:

- List View:** Shows a list of objects with fields for Full name and Birthday. A callout notes: "A list view shows a list of objects".
- Properties Panel:** Shows the Properties tab selected. A section for the BUTTON component is highlighted with a red box, specifically the "Events" dropdown.
- Form:** Shows input fields for Full name, Email, and Description, along with Save and Close buttons.

Key Points : Mendix

Certification Opportunities on Mendix

Rapid Developer Certification

1.5 Hours

This certification shows you understand the fundamentals of the Mendix Platform and how, when, and where to use them.

Advanced Developer Certification

2 Hours

This certification exam is a multiple choice test that will test your Mendix Platform skills and knowledge.

Intermediate Developer Certification

1.5 Hours

This certification shows you are able to apply knowledge into practical scenarios and be a great addition to Mendix projects.

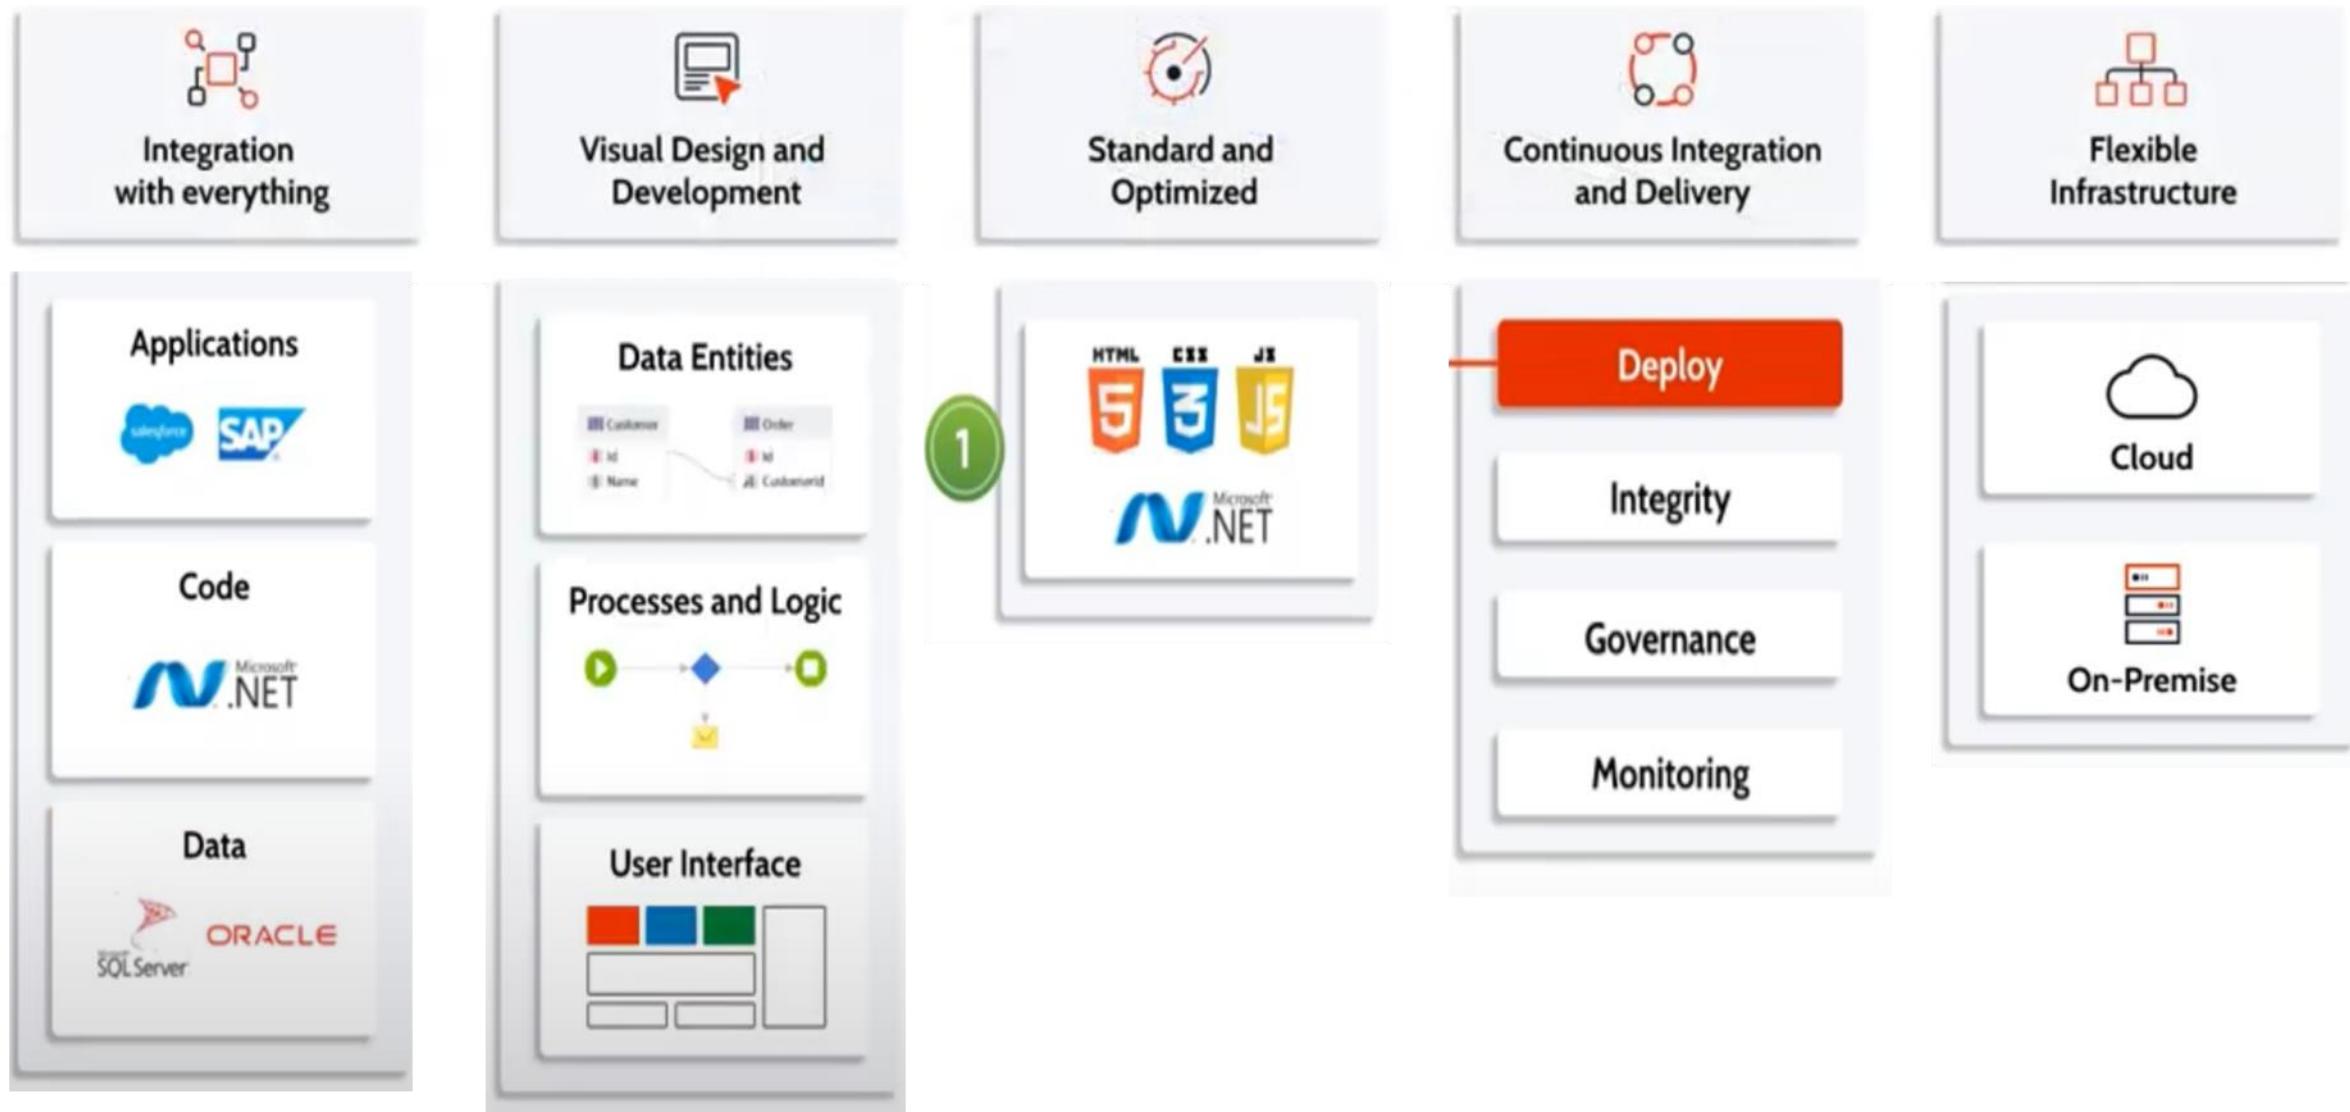

Expert Developer Certification

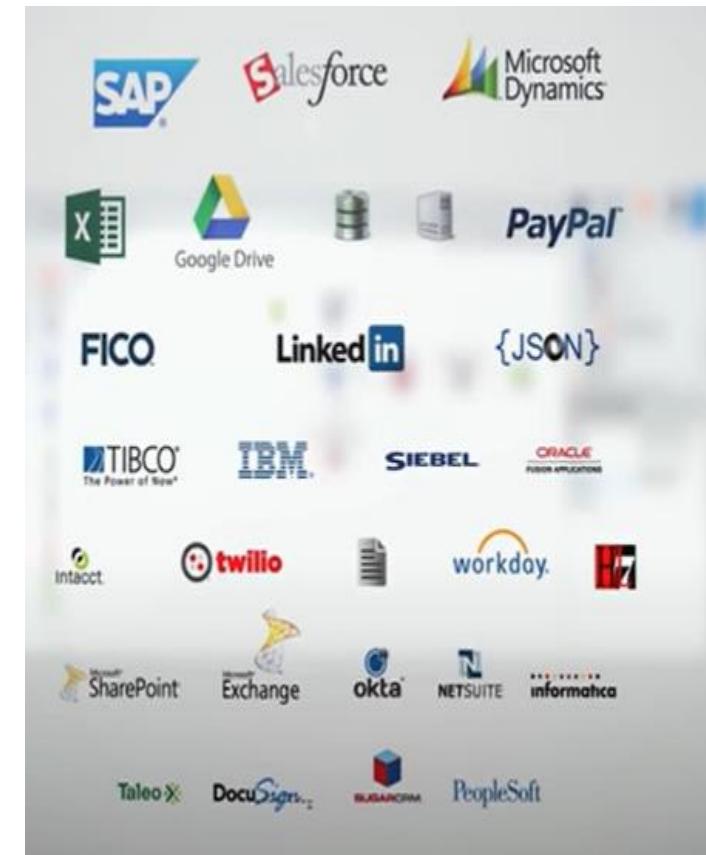

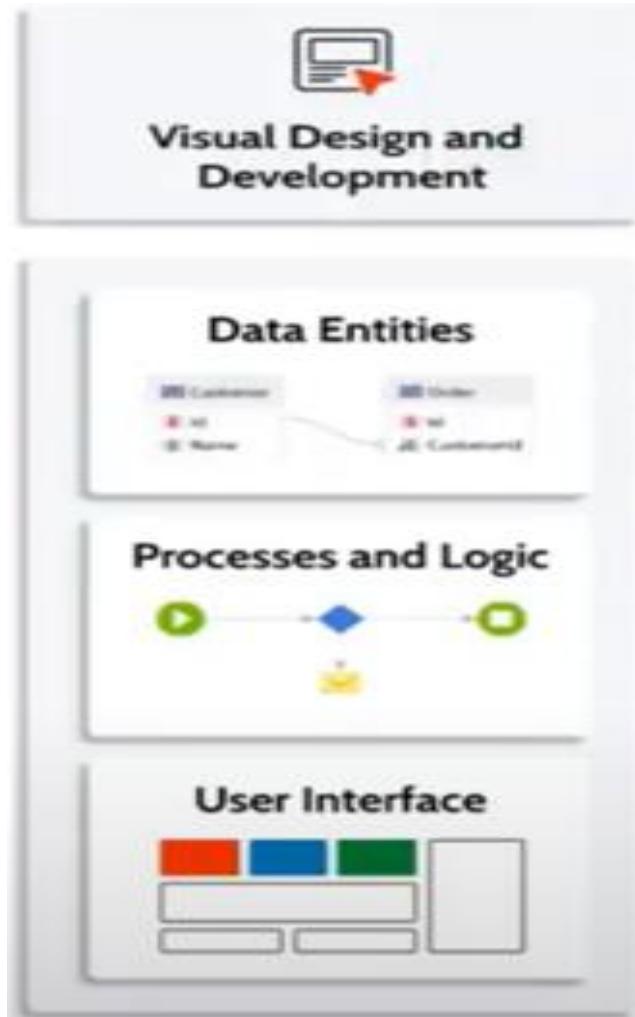

1.5 Hours

Certified Expert Developers have proven capabilities in taking the lead when delivering Mendix applications to their customers.

OutSystems Capability

Key Points : Out Systems

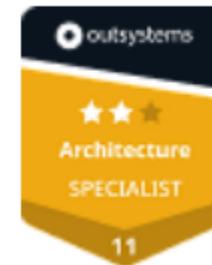

Certification Opportunities on OutSystems

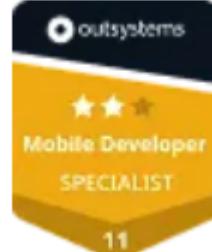

- Reactive Web Developer
- Mobile Developer
- Tech Lead
- Front-end Developer
- Traditional Web Developer
- Platform Ops Engineer
- Delivery Specialist
- DevOps Engineer

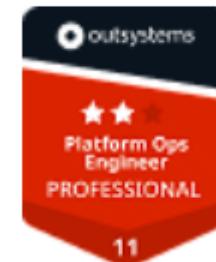

Associate Reactive Developer

Architecture Specialist

Mobile Developer Specialist

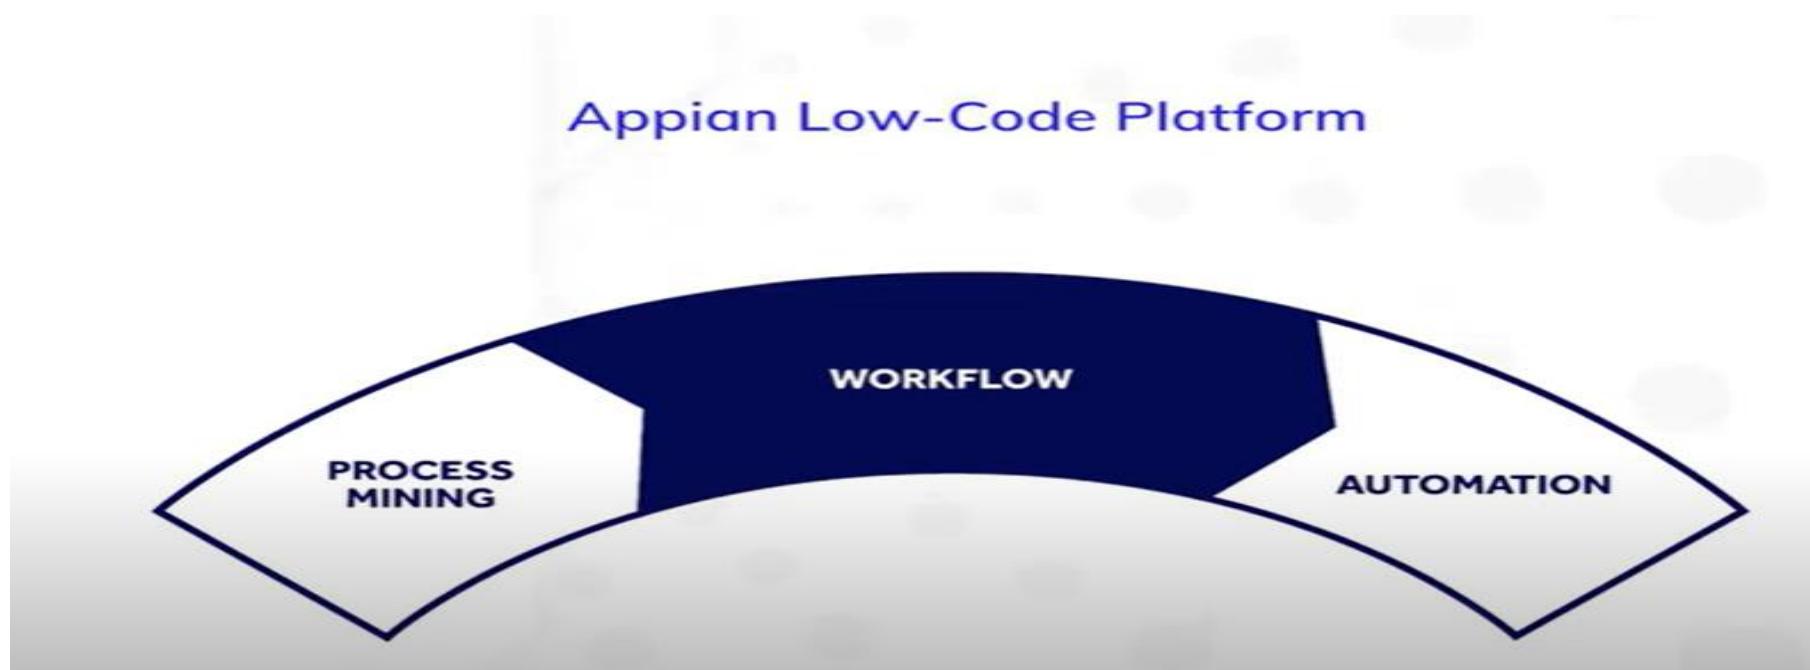

Professional Platform Ops Engineer

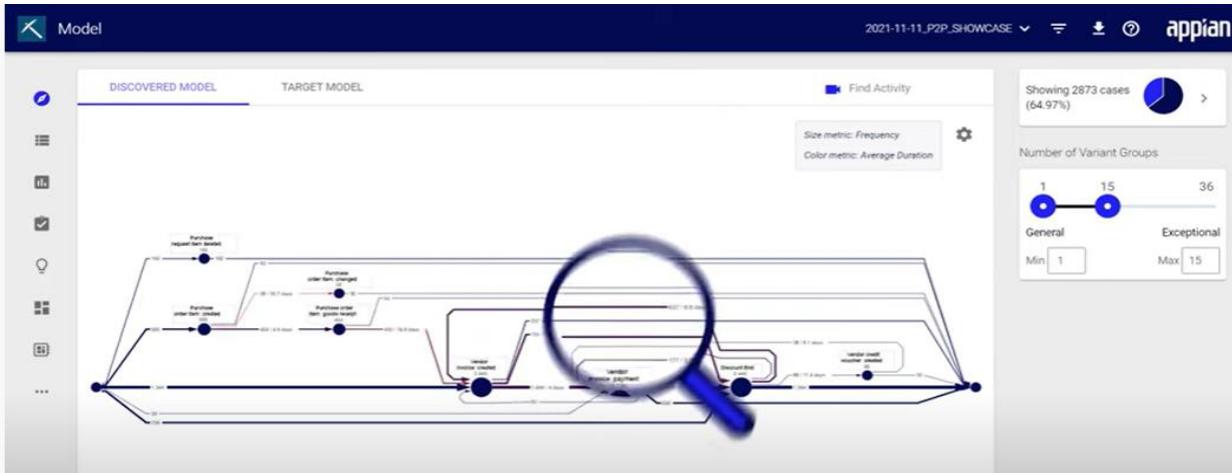

Appian

Appian is a **low-code development platform designed for businesses of all sizes**. It enables users to build business process management (BPM) applications.

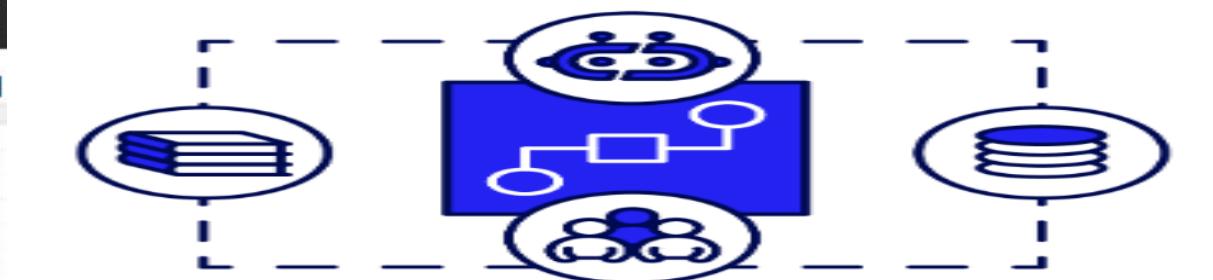

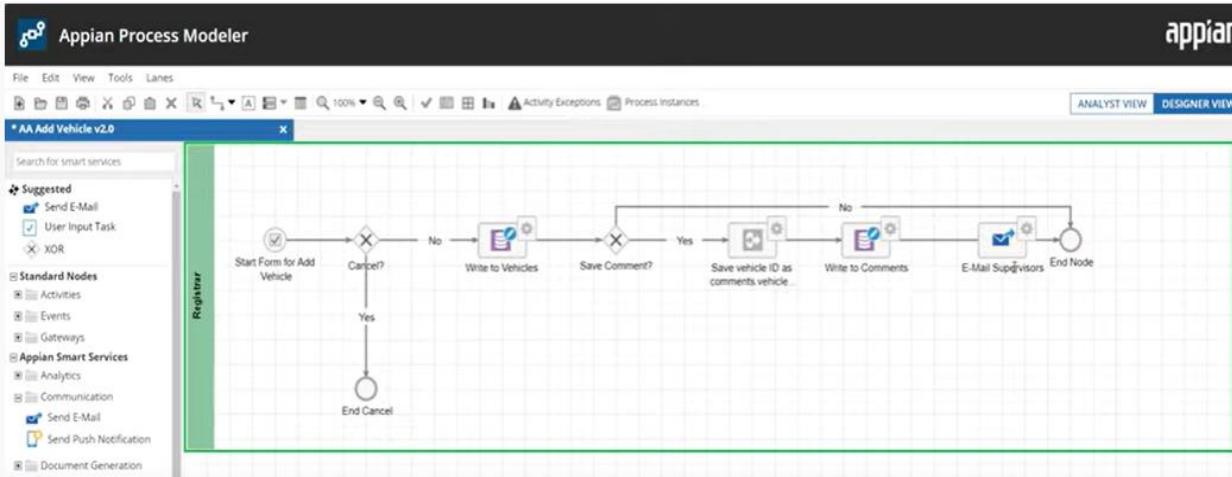

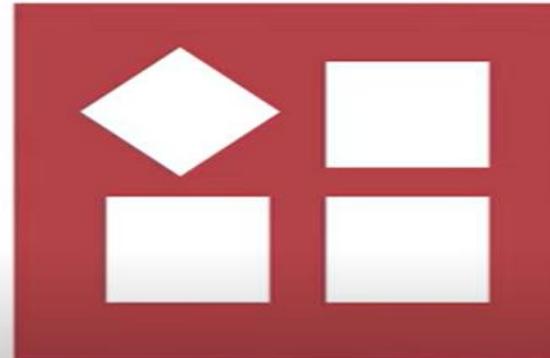

Appian Components .

Appian Components

Appian Portals

Key Points : Appian

- Appian is a low-code platform equipped with native deployment tools and integration options with DevOps tools like Jenkins.
- Designed for businesses of all sizes, Appian allows users to build business process management (BPM) applications.
- Essentially, BPM applications help businesses organize and optimize business processes.
- Automation

Certification Opportunities on Appian

Analyst

Are you a non-developer team member, such as a business analyst, project manager, product owner, or UX designer?

The Appian Certified Analyst exam validates your knowledge and experience with planning successful projects.

Track: Analyst
Prerequisites: None
Cost: \$200

Associate Developer

Do you have a basic understanding of building in the Appian environment? The Associate Developer exam validates your knowledge of best practices around the design, development, and maintenance of apps.

Track: Developer
Prerequisites: None
Cost: \$200

Senior Developer

Are you a developer with advanced knowledge of Appian concepts and tools as well as delivering scalable solutions? The Senior Developer exam validates your knowledge and skills of delivering scalable and high-performing Appian applications.

Track: Developer
Prerequisites: Associate Developer
Cost: \$200

Lead Developer

Do you have expertise in delivering successful Appian projects? The Lead Developer exam validates your complete understanding of Appian's platform architecture.

Track: Developer
Prerequisites: Senior Developer
Cost: \$200

Certification Opportunities on Appian

Developer Prerequisites

- **Certified Associate Developer** - Pass Certified Associate Developer exam
- **Certified Senior Developer** - Hold an active Certified Associate Developer **AND** pass the Certified Senior Developer exam
- **Certified Lead Developer** - Hold an active Certified Senior Developer **AND** pass the Certified Lead Developer exam

Project Ready

Project Independent

Project Lead

Pega Platform

- Pega is one of the excellent BPM tools that provides process automation
- PEGA is created in Java and uses OOP and Java ideas
- Pega Platform is very good at data modelling functionality.
- Integration with other systems options
- Business Process modelling, changing, review, User Interface stack

Pega Platform
by Pega

Key Points : Pega

Pega Platform **Capabilities**

**Low-Code Application
Development**

Case Management

Conversational Channels

Cloud Services

Data and Integration

Decision Management

DevOps

Mobile

Reporting

Security

System Administration

User Experience

Certification Opportunities on Pega

Certified Pega Business Architect

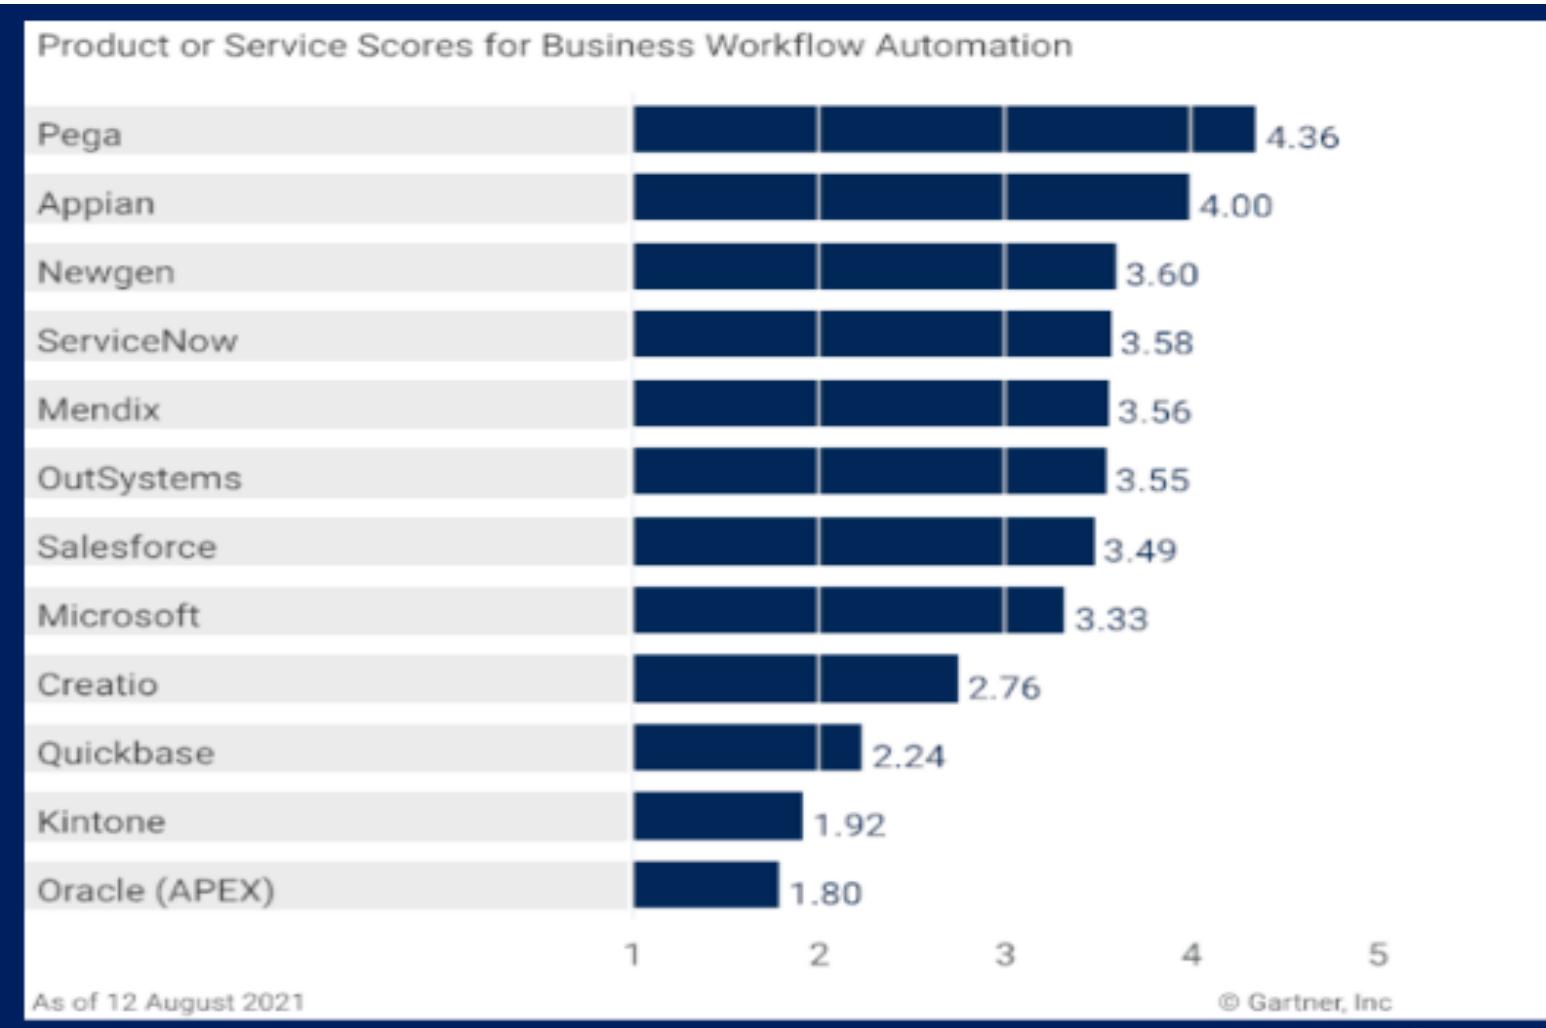

The Certified Pega Business Architect certification concentrates on the ability to participate in the design and construction of a Pega application. Certified Pega Business Architects possess the fundamental, essential skills needed for analyzing, designing, and creating business requirements and specifications in the Pega application.

Certified Pega System Architect

The Certified Pega System Architect career path is for developers and technical staff members who want to learn how to develop Pega applications. This certification provides a baseline measurement on your knowledge of Pega Platform.

Business Workflow Automation report by Gartner

Comparative Study

Scenario : Employee Engagement Survey

ABCL is a Software Development organization and they have lately observed that employees in their organization don't feel inclusive and hence they need to carry out an Employee Engagement Survey and have insights in place to improve overall culture in the organization. This survey will also help them to determine and measure the level of satisfaction amongst their employees. ABCL has identified Low Code Development Platforms to rapidly develop an App to carry out the survey and has following expectations:

- Good UI Design for a user-friendly experience
- Validation of Data
- Submission of Questionnaire through the App
- Roll Out / Deployment of App
- Sending Survey Link to all Employees
- Saving the responses from Employees
- Sending notification via email after the survey
- Build Dashboard

Resolution
Resolution Section
We see that you are on **Microsoft Certified: Azure Fundamentals** course. You must complete at least 80% of your online training to gain confidence before you attempt this exam. Also you must ensure to attend all SME connect sessions. If you are confident that you are well prepared for this certification exam, use the pdf under the Downloads section of this page and follow it to book your exam. Please note Microsoft exams do not need a voucher. Once you link your Microsoft id with Accenture id, you will receive 100% waiver in the exam fee. Refer to the pdf and follow steps given from Page #5 onwards.
